If you are a new parent, grandparent, or caregiver, and are seeking assistance with proper placement and installation of a child safety seat within your vehicle, the Warren Co. Sheriff's Office has deputies that have been trained and certified in the proper installation of child safety seats and would be glad to help. If you would like assistance in installing a child seat, or if you would like for one of our certified child safety seat technician deputies to inspect your child safety seat, please contact our office Monday through Friday from 8:00am until 4:00pm.

You can also visit the [Virginia Dept. of Health](#) website for additional safety seat installation information. This site offers videos providing instruction for installing infant only rear-facing safety seats, convertible rear-facing seats, forward facing safety seats, and belt positioning booster seats.
