Our Operation Telephone program was established in 1981 and continues to grow each year. This program is designed for any elderly, disabled, or homebound citizen who has no family members or caretakers to look after their welfare. Communications officers make contact with Operation Telephone participants daily to ensure their well being. If our Copmmunications Officer is unable to make telephone contact with the participant, a deputy is dispatched to their residence to personally make contact with the individual.

If you have any questions or are interested in participating in the Operation Telephone program, please call 540-635-4128.
